FILTER TANKS GUARANTEED FOR LIFE

Represented by

This **HYDROKLEEN** filter is maximizing the efficiency of the irrigation system at a **20 ACRE KIWI GROVE** in Ducor, CA. Should'nt your investment be protected as well? Hundreds of thousand acres of high value orchards and groves throughout the world use **HYDROKLEEN FILTERS**

HYDROKLEEN FILTER SYSTEMS designed and installed the **FIRST** filter system manufactured specifically for drip irrigation, (1969). **HYDROKLEEN FILTER SYSTEMS** design was the **FIRST** filter design in the world to utilize backwash (backflush) water pressure from the common discharge header eliminating the traditional "valve nest". **HYDROKLEEN FILTER SYSTEMS** was the **FIRST** agricultural filter to utilize stainless steel for the material of construction. **HYDROKLEEN FILTER SYSTEMS** was the **FIRST** agricultural design to automate the backwash requirement that allows unattended operation.

*** IMITATED BUT STILL UNEQUALED ***

HYDROKLEEN SYSTEMS

Still manufacturing the highest quality complete line of filtration equipment available.

SERVING AGRICULTURE
